④ Courbe de consommation - Revenu comporte deux
parties :

$$R < 1 \quad \begin{cases} \overline{x_1} = R \\ \overline{x_2} = 0 \end{cases} \implies \begin{cases} x_2 = 0 \\ 0 < x_1 < 1 \end{cases}$$

$$R \geqslant 1 \quad \begin{cases} x_1 = \dfrac{R+1}{2} \\ x_2 = \dfrac{R-1}{2} \end{cases} \implies \begin{cases} x_2 = x_1 - 1 \\ x_1 \geqslant 1 \end{cases}$$
